Experienced **Software Engineer** with a strong foundation in **Full-Stack Development,** scalable web applications, and accessible digital experiences.

Relevant Experience

Freelance Software Engineer | Self-Employed | *Mar 2024 – Present*

- Designed and developed **MatchMyTravels** – a React + Spring Boot based full-stack travel & cab booking platform with features like trip-type forms (local, outstation, airport), MapmyIndia location autocomplete, form validation, and vendor management system.
- Production-ready React cab booking form optimized for SEO and customer conversion, integrating fallback contact options (WhatsApp/phone).
- Migrated Google Maps API to Mapbox & MapmyIndia APIs for cost efficiency and scalability.
- Deployed and optimized applications on Vercel, and GoDaddy, ensuring high performance and SEO visibility.
- Consulted on Google Ads optimization for travel services (Match My Travels), improving ad strength with SEO-friendly content.

Operations Analyst | Pristyn Care | *Feb 2021 – Feb 2023*

- **Data Monitoring & Analysis:** Leveraged SQL and Excel to track and optimize patient admissions, room allocations, and discharges.
- **Data Integrity:** Ensured accurate and consistent data across systems by conducting audits and corrections.
- **Trend Insights:** Identified operational trends and delivered actionable insights to senior management.
- **Team Development:** Trained colleagues on SQL & Excel, raising the team's analytical capability.
